

TM GENESEAS

THE STARTING POINT FOR YOUR ONBOARD DIGITAL NEEDS

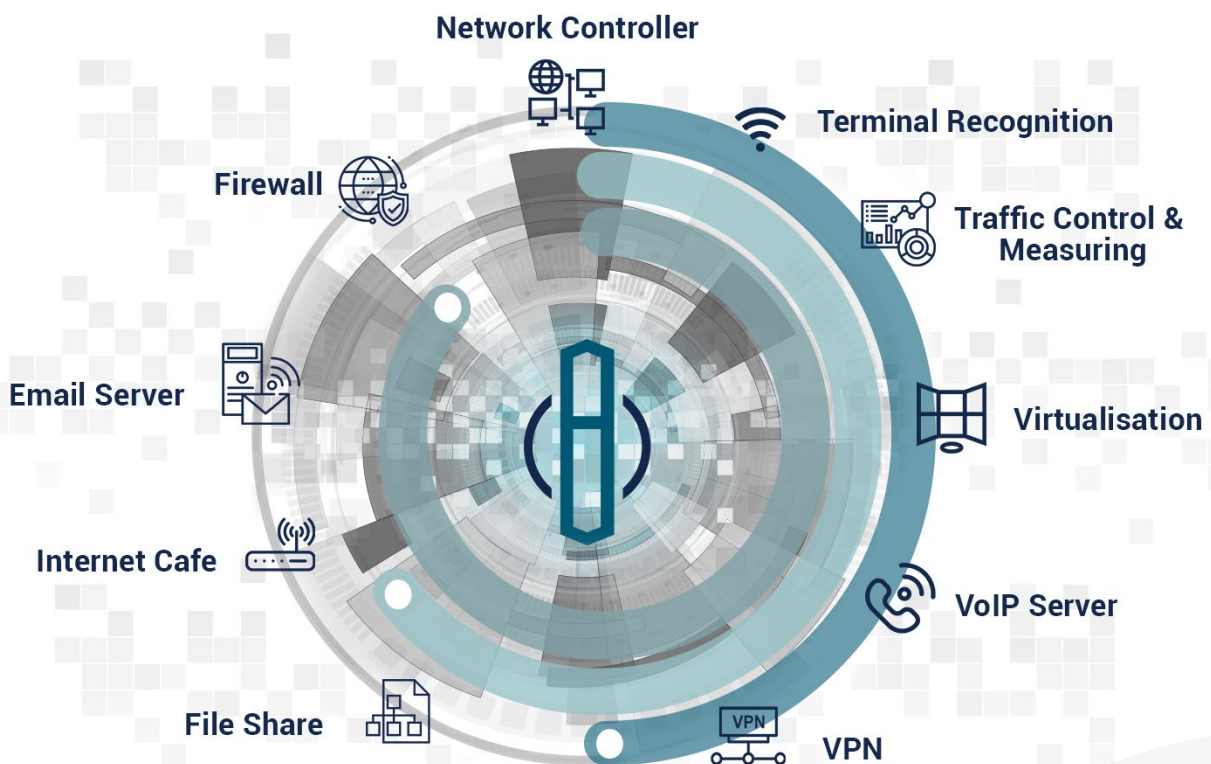

Create the onboard environment your crew expects and enable the business solutions your organisation demands.

A connected vessel needs flexible and intuitive monitoring and management of onboard IT networks, communication channels and terminals and robust infrastructure to maintain security and integrity.

TM Geneseas is the starting point for your onboard digital needs. With an intuitive and

dynamic user interface, the TM Geneseas portal allows fleet wide real time monitoring and explicit status notifications for all your vessels. Seamlessly integrated with a range of different systems, TM Geneseas offers the scalability and collaborative approach, which makes Tototheo Maritime the ideal maritime technology partner.

THE UNIQUE VALUE OF TM GENESEAS

AN ALL-IN-ONE SOLUTION FOR EASY AND INTUITIVE COMMUNICATION

More than just a “smartbox” TM Geneseas encompasses a wide range of possibilities specifically designed to suit the different needs of each fleet.

- Attractive and flexible crew communication packages
- Easy installation and low cost maintenance
- Integration with different systems
- Fully configurable in-house development for better control
- User friendly interface with configurable dashboard and enhanced visibility
- Effective and proactive cost control through monitoring, alerts and reports
- Solid state hard drive for optimal performance
- Access control through secure user profiles

ITS ALL ABOUT FINDING THE RIGHT SOLUTION FOR YOU!

From light embedded PC specifications to a full rackmount server setup, TM Geneseas does not compromise on functionality or performance.

EMBEDDED PC

TM Geneseas Light

Our standard embedded PC setup, loaded with all necessary capabilities for sophisticated bandwidth management, firewall and crew communications and much more.

ENHANCED EMBEDDED PC

TM Geneseas Pro

Upgraded embedded PC with all the features of TM Geneseas Light and added 3G/4G capabilities and enhanced processing power.

TM Geneseas Pro+

Adding further capabilities to the TM Geneseas Pro, with Marine Approved certifications which make this configuration suitable for e-reporting applications.

SERVER SETUP

TM Geneseas Platinum

Rackmount server, offering powerful processing capabilities. Fully configured to suit the desired setup.

TM Geneseas Flex

A bespoke server setup with extensive functionality and customer specific technical specifications. For fleets which may require a dedicated special configuration.
