TM RMM

Empower Your IT Infrastructure with Advanced Remote Management & Monitoring

Managing IT systems across various locations requires comprehensive tools for real-time oversight and efficiency. TM RMM by Tototheo Global provides a powerful IT Service Management (ITSM) solution designed for remote monitoring and management of your IT infrastructure. Whether managing vessels, offices, or remote locations, TM RMM offers full visibility, control, and automation, ensuring your operations are always running smoothly and securely.

Key Features

Comprehensive Asset Discovery
Using advanced network probe technology, TM RMM automatically discovers and deploys network devices, offering real-time insights into your IT environment.

Automated Agent Deployment
Deploy agents seamlessly across supported endpoints, making IT management simpler and more efficient for both centralized and distributed environments.

Dual Asset Inventory
Enjoy complete visibility into your virtual machines and network devices with both agent and agentless inventory tracking.

Advanced Endpoint & Server Management
Manage desktop, server, and endpoint issues quickly, without disrupting productivity, with over 100 pre-configured commands for efficient IT problem resolution.

Proactive Patching
Keep your systems secure and compliant with centralized patch management for both Windows and third-party applications.

Monitoring & Remote Control
With advanced session management, you can continuously monitor your IT environment and control systems remotely, helping prevent issues before they impact operations.

Efficient Automation
Maximize productivity by automating repetitive IT tasks, allowing proactive maintenance and self-service capabilities across your IT infrastructure.

Seamless IT Management for Businesses Onboard and Ashore

Designed for Global Business Operations

TM RMM provides full control over IT systems, whether in offices, on vessels, or remote locations. Its powerful automation and management tools ensure seamless operational efficiency.

Enterprise-Grade IT Security and Control

With TM RMM, your IT infrastructure is secure and continuously monitored. Features like asset inventory and remote management help maintain business continuity across various industries, including maritime and logistics.

The Tototheo Global Advantage

Tototheo Global offers advanced connectivity and technology services across maritime, land, and air sectors. Backed by decades of technical expertise, we deliver innovative, tailored solutions—ranging from satellite communications and navigation to AI, IoT, and cybersecurity—for optimized performance and sustainable growth.

Innovative and Sustainable
We prioritize continuous innovation and sustainability, providing future-ready solutions that reduce environmental impact.

Global Reliability
With a strong global presence, we offer consistent, reliable service and quick support, wherever your fleet operates.

Tailored Approach
We deliver customized solutions that meet the specific needs of each client, ensuring the best fit for your operations and sustainability goals.

Seamless Integration
Built for easy integration, each service comes with full support for smooth implementation across your operations.

Enhanced Well-Being
Our solutions are designed to improve both operational efficiency and crew well-being, ensuring safer, more enjoyable voyages.
